

9:30am-10:00am

Keynote Speech: Craig Moffett, MoffettNathanson Research

The Cost of Deploying New Spectrum

With new spectrum now available (AWS-3) and more soon to come (600 MHz), this session will look at the cost of building network specifically for these new bands. In most cases, new networks will not be required but rather upgrades to the existing infrastructure – new antennas, radios, etc. But what exactly will be required? And what is the cost of this upgrade?

- **Peter Rysavy**, Rysavy Research (Moderator)
- **Troy Suddith**, Director, Engineering & Services, Corning
- **Ray Hild**, Vice President, North America, Galtronics Corporation
- **Gary Williamson**, Vice President, Network Services Operations, Nexus

2015 Wireless Infrastructure Show –All sessions and times subject to change

Advocacy & Regulatory

Business & Finance

Alternative Wireless Networks

Network Evolution

Emerging Trends

Special Sessions

Monday, April 27

11:00am-5:00pm

11th Annual PCIA Golf Outing & SWAP Shootout

2:00pm-6:30pm

Infrastructure Developers Forum Meeting

7:00pm – 10:00pm

WWLF Reception

Tuesday, April 28

7:00am-8:00am

HetNet Forum Breakfast and Annual Meeting of Members, Sponsored by: B+T Group

8:00am-8:15am

Welcome Remarks

8:15am-9:15am

Creating the Wireless Workforce of the Future

9:15am-9:45am

Keynote Speech: Chris Stark, Nokia

9:45am-10:15am

Keynote Speech: FCC Commissioner O’Rielly

10:15am-10:45am

Keynote Speech: Dave Mayo, T-Mobile, Sponsored by: T-Mobile

10:45am-11:00am

Break

11:00am-12:00pm

Issues in Environmental & Historic Preservation Compliance, Sponsored by: Cuddy & Feder LLP	Making the Small Cell Business Model Work, Sponsored by: Fullerton Engineering, Vertix Consulting	Building the HetNet, Sponsored by: Advantage Engineers	On the Edge of the Data Tsunami, Sponsored by: Qualcomm	Decommissioning Aging Cellular Infrastructure, Sponsored by: Red Wing Electric
